KCA University

September 2016 - April 2018

Studies in Computer Science

Kanunga High School

2012 - 2015

Kenya National Examination (KCSE)

Projects

Bake Connect <https://bakeconnect.app/home>

This is an Angular-based Web application that enables home bakers to record and manage their customers' orders, payments and allow them to send tailored notifications via SMS.

Kekes Reading Nook <https://kekesreadingnook.com>

This is an Angular-based platform that allows users to browse through a wide genre of books and rent them based on their subscription plan from a home-librarian who hopes to nurture a community with reading-culture for generations to come.

KCB Bank Mobi-reg Portal

This project sought to collapse multi-step service requests into one complex service-request initiated and approved, do Inter-dependency processing. Provide better visibility of complex actions and better experience by giving users the ability to view automatic processing of statuses to individual operations and abstract asynchronous APIs for a seamless experience.

Gitsearch Web Application <https://wess58.github.io/Gitsearch>

This Angular web application uses Github's API to enable a user to search for github accounts. View certain details of an account and public repositories and maneuver to live links of the applications or their github repos.

Decalogue International <http://www.decalogue.co.ke>

Developed and launched a responsive website for Decalogue International Ltd using Angular framework. Collaborated with the company's team to create a user-friendly interface and experience optimized for site performance. A lot of user testing was carried out to ensure peak overall functionality was delivered.

Knowledge and interests

Languages

- English and Kiswahili : fluent in word and writing
- German : basic in word and writing

Technologies

- Angular JS , Angular , React , Vue , Javascript / Typescript , HTML & CSS , Bootstrap & Material UI beautifiers , Android , Git Version Control (Git) , Java , REST APIs , Docker , Kubernetes, Firebase & PostgreSQL databases

Interests

- **Art** : My greatest passion and strength is in fine art because it's the one place I'm free to express myself. Art has also helped me build moral excellence such as patience, keenness and creativity which have played a major role in my software design
